Sage 50 Accounts

What is Sage 50 Accounts?

What is Sage 50 Accounts?

Sage 50 Accounts is market-leading accounts software designed to help you manage your finances. Keep track of sales, expenses and profit, and quickly analyse business performance with a range of reports. Sage 50 Accounts gives you the information you need to stay in control and drive your business forward.

Why Sage?

We've been delivering software, services and support to businesses for **more than 30 years**. More than **140,000 businesses** in the UK and Ireland choose Sage 50 Accounts to help them run their business.

Through thousands of conversations with our customers every day, we understand the changing needs of business and respond to them. We adapt our software and services to **help you meet your challenges** now and in the future.

Sage 50 Accounts offers the best of both worlds, with the benefits of stable, reliable desktop software and the choice to securely link your data to the cloud, to give you **greater flexibility**.

Sage 50 Accounts at its core

Get up and running in a few simple steps

With a simple installation process, it's **easy to install and set up**. We have a dedicated team of experts to help you with anything you need including; moving data, getting set up and anything else you might need from your new software. Giving you complete peace of mind everything is set up correctly and **ready to use**.

Manage your finances

Easily manage your accounts, understand your cash position and keep your bank records up to date. If you trade overseas, add the Foreign Trader module* and manage multiple currencies.

Manage your VAT

Automatically and accurately calculate your VAT returns, verify and submit them to HMRC online in the UK or the Revenue in Ireland. Save time by **submitting your returns in just three clicks** and keep records of your returns and submission receipts together.

The 'Show me how' feature gives you the **confidence** that you are entering and processing transactions correctly for your VAT Scheme. Whilst, the 'VAT verifier' ensures that your VAT return contains all the transactions for the VAT period you're submitting.

Manage your customers and sales

Create and find all your customer details **quickly and easily**. Store all your product and service information, and raise **professional looking quotes and invoices** or record sales at the click of a button.

Manage your stock

Get an **accurate view of your stock value**; keep information on your stock levels **up to date** and check if you have enough stock to fulfil orders as you go.

Understand your business performance

With a selection of reports at your fingertips to help you analyse and understand your business, you'll be able to make **better business decisions**. Get a quick overview of your finances at a glance, or dig deeper into the analysis with reports that you can tailor to your unique business needs.

Software that grows with you

Sage 50 Accounts has been **tested with up to 1.5 million transactions**, and up to 20 concurrent users**, so you can be confident it will continue to serve your business as it grows.

Automatic backups

Ensure your backup data is always up to date by scheduling regular automatic backups while you continue to work. Meaning **minimal downtime for your business**.

Bank feeds powered by Yodlee***

Balancing the books is an integral part of managing accounts but it doesn't need to be a manual or tedious process. Bank Feeds makes reconciling your accounts and bank balances **simple and error free**.

Get paid faster with Invoice Payments***

By adding Pay Now buttons onto your invoices, your customers will be able to pay you instantly, **easily and securely**. You'll also be able to accept card payments over the phone from directly within Sage 50 Accounts. All payments you take are automatically posted into your accounts, **saving lots of time**.

Sage 50 Accounts on the move

Sage Drive†

By linking your Sage 50 Accounts data to the cloud with Sage Drive, you can **easily share it with other users**. For example, a colleague working from home or on the move can access the same information as someone based in the office, **in real-time**.
